

TELEPHONE NUMBER RESEARCH

Regis24's Telephone Number Research service benefits your business through unimpaired client relationships, efficiently processed master data and a significant reduction in costs and efforts for internal departments like Collection Management. To this end we identify phone numbers, from public directories or via third parties, whose release for transfer has been obtained beforehand, for example by means of general terms and conditions.

ADVANTAGES FOR YOUR BUSINESS WITH TELEPHONE NUMBER RESEARCH FROM REGIS24:

- only publicly available and valid directories for phone number detection
- up to 100% success-based pricing – you only pay when our performance is successful
- no minimum purchase or minimum contract period
- assured transparency of data provenance and guaranteed to comply with the current legal requirements in German law of the European Data Protection Regulations
- established and certified since 2003

YOUR OPTION: TELEPHONE NUMBER RESEARCH PREMIUM

Count on a higher success rate: with Regis24's Telephone Number Research Premium package you can enjoy all the advantages of our classic identification services and expand on these with:

- comparison between existing phone numbers: You just send us the numbers you know and eliminate these from the investigation to achieve more cost savings for you
- use of further databases: We can guarantee you a higher matching success rate because, when you use Telephone Number Research Premium, we can undertake research in a broader range of databases
- differentiation between landlines and mobile telephone numbers possible.

Feel free to talk to us about this option and your prospects.

+800 successful companies trust in our solutions:
